

Chapter 15 Implementation and Monitoring / Appendix C Monitoring Framework

The purpose of this section of the Core Strategy is to express how it is intended to monitor each of the policies. This will be undertaken annually through the Council's Annual Monitoring Report and will need to follow the approach set out in DCLG's 'Local Development Framework Monitoring: A Good Practice Guide'.

Recommended Approach :-

1. To update Appendix C to include targets and indicators for all policies in the Core Strategy and to comply with the guidance in PPS 12 and the Local Development Framework Monitoring: A Good Practice Guide.
2. To ensure that all policies are written with a view to how they will be monitored effectively.

Chapter 15 Implementation and Monitoring/Appendix C Monitoring Framework		
Response no./Organisation	Summary of key issues	WCC officer response and Recommended Approach
85 (Highways Agency), 87 (Government Office for the South East), 90 (English Heritage)	<p>Section 15 addresses Implementation and Monitoring but there do not appear to be the necessary arrangements set out. PPS12 (paragraph 4.1) states that there should be clear arrangements for managing and monitoring the delivery of the strategy.</p> <p>It is not clear how the policies set out appendix C will be effectively monitored as no indicators or targets have been outlined. There is a subsequent risk that these policies will not be appropriately monitored and the Core Strategy could be considered to be not</p>	<p>It is agreed that further work is required to develop the indicators and targets related to the policies in the Core Strategy. This will need to ensure that the 'objectives-policies-targets-indicators' approach as set out in DCLG's 'Local Development Framework Monitoring: A Good Practice Guide' is followed.</p> <p><u>Recommend Approach:</u></p> <p>1.To update Appendix C to include targets and indicators for all policies in the Core Strategy and to comply with the guidance in PPS 12 and the</p>

	<p>'effective', as set out in PPS12</p> <p>The monitoring framework for CP8 (Cultural Heritage and Landscape Character) is limited in scope, with targets for Conservation Areas yet to be defined. The 'Heritage at Risk' register can be used to inform the policy. English Heritage's guidance on sustainability appraisals suggests a broad range of indicators and sources of information.</p>	<p>Local Development Framework Monitoring: A Good Practice Guide.</p> <p>2.To ensure that all policies are written with a view to how they will be monitored effectively.</p>
