

Appendix 7 addendum

Additional Reponse to Draft Local Plan Part 2 Consultation

Respondent Number	Paragraph / Policy	Response	Summarised Comment	Officer Comment/ Recommended Response
50148	WIN1 and WIN3 Map 26	Object	Winchester College objects to the settlement boundary as drawn on the draft Proposals Map for Winchester in that it excludes a key area north of College Walk. This includes the site known as Blackbridge Yard and an open sports area known as Pilgrim's Piece. Blackbridge Yard is available for development and as Pilgrim's Piece is currently used as a sports ground by the Pilgrims' School and is therefore related to the settlement rather than the 'countryside'. Winchester College therefore request that the boundary of Winchester Town is drawn along College Walk to correctly include land to the north of College Walk within the settlement boundary in line with its continuous use by the school.	This representation raises matters that require further investigation. Recommended Response: To ensure that the most settlement boundary and appropriate sites are allocated through LPP2, further work needs be undertaken on the various points raised in the representation, including sustainability appraisal, and the results of this will be reported back to a future meeting.
