

**Appendix 1: Consultation Responses –
Additional response received within consultation period but not passed
on to Access & Infrastructure**

Objectors Address	Summary of Objection / comment	Response
Resident, The Square, Wickham #4	<p>Objects on the basis that the new arrangements are based on ideas introduced many years ago and are simply not working because Winchester (Council) is trying to standardise parking regulations across the rural towns, whereas they are not necessarily applicable to Wickham.</p> <p>The respondent comments that the existing scheme is not effectively enforced or managed and provides a number of suggestions for the modification of the scheme, including modified enforcement, and higher parking charges than those under consideration.</p>	<p>The traffic orders relating to the control and charging in the rural town car parks have been standardised for a number of years, the proposed pricing changes do not affect that element.</p> <p>The suggested 'higher' parking fees (£1.00 for 1hr 40mins and £2 for 2hr 40mins) for Wickham would then not be compatible with those for other towns, and would be considerably more than currently sought.</p> <p>The comments on the enforcement are not relevant to the proposed charge increases, but will be passed to the parking team for consideration</p>
