<u>ORGANISATIONAL DEVELOPMENT PERFORMANCE MONITORING – SECOND</u> QUARTER 2015/16

REPORT OF HEAD OF ORGANISATIONAL DEVELOPMENT

Contact Officer: Alison Gavin Tel: 01962 848 233 Email:agavin@winchester.gov.uk

## **RECENT REFERENCES:**

PER273 – Organisational Development Performance Monitoring First Quarter
2015/16 – 29 September 2015

# **EXECUTIVE SUMMARY:**

This report sets out a range of performance information relating to the human resources of the Council. This includes an update covering the second quarter of 2015/16 against performance indicators for sickness absence, staff turnover and the Council's staff establishment.

## **RECOMMENDATION:**

That the Committee raises with the Portfolio Holder any issues arising from the performance information included in the report and considers whether any items of significance need to be drawn to the attention of Cabinet.

# ORGANISATIONAL DEVELOPMENT PERFORMANCE MONITORING – SECOND QUARTER 2015/16

## REPORT OF HEAD OF ORGANISATIONAL DEVELOPMENT

#### **DETAIL**:

- 1 Introduction
- 1.1 This report sets out performance information for the human resources of the Council for the second quarter of 2015/16 by way of a range of key performance indicators.
- 1.2 The performance information in this report gives an overview of the personnel aspects of the whole organisation and gives an insight into the Council's performance in managing the workforce efficiently and effectively. A selection of this information is presented to the Corporate Management Team and Heads of Teams on a monthly basis to assist in the management of the organisation.
- 2. <u>Performance Indicators</u>
- 2.1 Appendix 1 sets out performance monitoring information for a range of performance indicators relating to staff attendance, staff turnover and the Council's staff establishment.
- 2.2 Members will note more detailed comments on individual charts and graphs included within Appendix 1. The data for these charts and graphs has been extracted from the Council's Selima HR system.
- 2.3 The Local Government Association (LGA) continues to collect quarterly data for a small number of performance indicators, including sickness absence from authorities on a voluntary basis. The LGA has now published data relating to the first quarter of 2015/16.
- 2.4 Provisional data is given for Winchester for quarter two 2015/16 although this has only recently been submitted to the LGA. Release of the data for this period for the other contributing authorities is expected during December.
- 2.5 The table below provides a comparison of the quarterly data for Winchester and all English district local authorities, where the data has been submitted to the LGA.

Overall sickness absence (per FTE – excluding schools)								
	Winchester	Minimum for all English district Local Authorities	Average for all English district Local Authorities	Maximum for all English district Local Authorities				
2014/15 Q2	1.7	0.7	2.0	3.6				
2014/15 Q3	2.0	1.0	2.2	3.8				
2014/15 Q4	2.4	0.9	2.4	14.0				
2015/16 Q1	1.4	0.3	1.8	4.3				
2015/16 Q2	1.5	n/a	n/a	n/a				

2.5 The most recently published data (period Q1 2015/16) shows that Winchester continues to have a lower sickness absence rate per fte than the average of the seventy district local authorities who have submitted their data for the same period which reflects the ongoing work of the Organisational Development Team to reduce the sickness levels at the Council.

## **OTHER CONSIDERATIONS:**

- 3. COMMUNITY STRATEGY AND PORTFOLIO PLANS (RELEVANCE TO):
- 3.1 The need to make the best use of all available resources by continued clear financial planning within the City Council is an integral part for the delivery of the Community Strategy.
- 4. RESOURCE IMPLICATIONS:
- 4.1 Contained in the detail of the report.
- 5. RISK MANAGEMENT ISSUES
- 5.1 Increased levels of absence or staff turnover impacts on the productivity and the ability to deliver a cost effective service for the Council.

## **BACKGROUND DOCUMENTS:**

Performance data held within the Organisational Development Team.

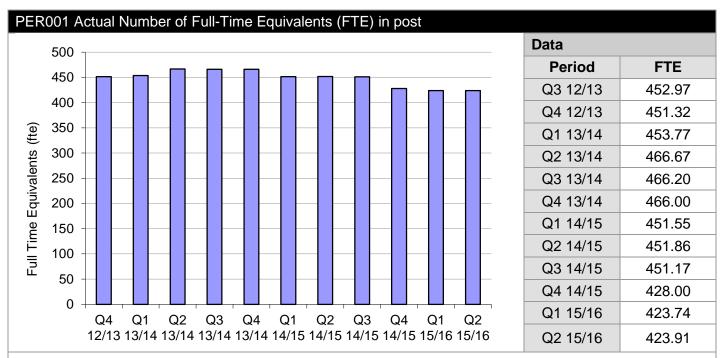

## APPENDICES:

Appendix 1 Organisational Development Performance Indicators.

## PERSONNEL COMMITTEE

Quarterly Performance Monitoring - Q2 2015/16 update

## **Establishment Indicators**

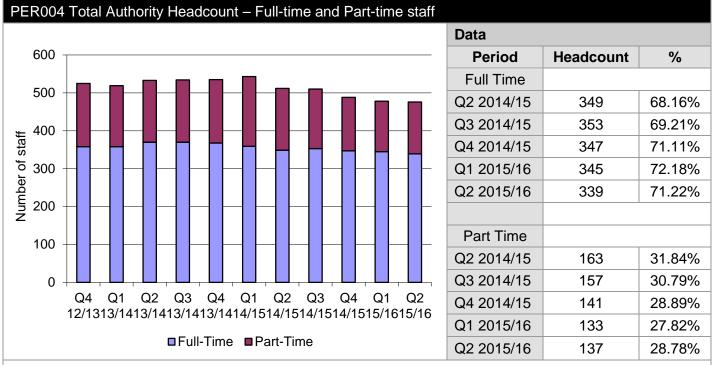

#### **Latest Comments -**

This chart shows the actual number of full-time equivalents that are in post at the end of each quarter (31 March, 30 June, 30 September and 31 December) and includes temporary posts that are covering for example, maternity leave and other vacancies.

The quarterly number of full time equivalents (fte) in post has increased very slightly during the three months by 0.17 fte.

The continuing focus on budgets and the need to make savings where possible has resulted in vacant posts being reviewed on an individual post basis before being recruited to. Where possible vacant posts will be held with the 1team process applied to all posts ensuring that internal resources are fully utilised.

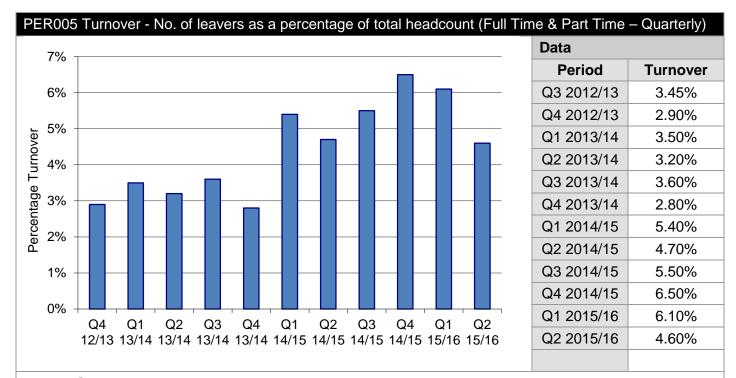

#### **Latest Comments -**

This chart shows the actual number and percentage of full-time and part-time staff employed by the Council at the end of each quarter (30 June, 30 September and 31 December and 31 March).

The total headcount at the end of quarter two was 476 which shows a decrease of 2 when compared to the previous quarter.

This is a result of the staff reductions in the Revenues Team, Housing Services, Built Environment, Communications, Policy & Planning, Business Management, Revenues, Estates, and Economy & Communities

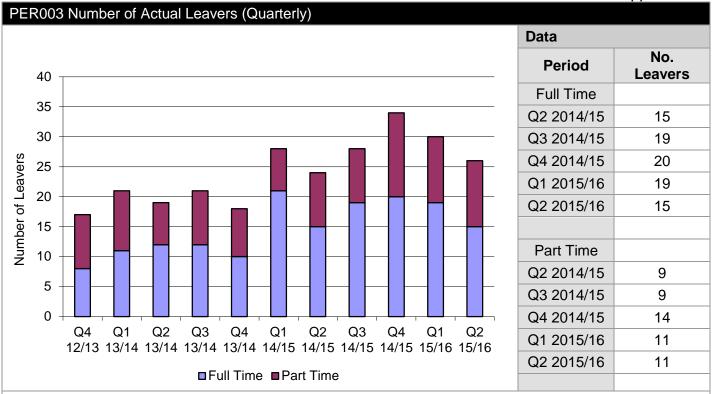

#### **Latest Comments –**

This chart presents the number of actual leavers per quarter as a percentage of the total headcount for the Council. Any internal moves between posts and departments are not shown as leavers within this data.

The actual number of leavers in quarter two was 26 compared to 30 for quarter one of 2015/16. More detail on the numbers of leavers is included in the chart on the next page.

The regular monitoring of staff turnover is particularly important as a high turnover figure may indicate low staff morale or other issues within the organisation.

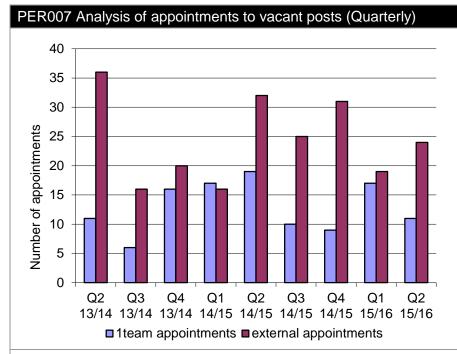

#### **Latest Comments:**

This chart shows the number of actual leavers per quarter (Apr-Jun, Jul-Sept, Oct-Dec and Jan-Mar) and is broken down between full-time and part-time staff.

The number of leavers in the period July to September (Q2 2015/16) included 6 from Built Environment, 1 from Business Management, 2 from Communications, 3 from Economy & Communities, 5 from Estates, 5 from Housing Services, 1 from Policy & Planning and 3 from Revenues.

The continued use of the 1team process enables resources to be allocated to priority areas if required after someone leaves.

Exit questionnaires are completed and interviews held with leavers and the results or comments closely monitored so as to identify any trends in areas or for example reasons for leaving.

Data					
Period	1team app't	External app't			
Q4 2012/13	9	13			
Q1 2013/14	16	14			
Q2 2013/14	11	36			
Q3 2013/14	6	16			
Q4 2013/14	16	20			
Q1 2014/15	17	16			
Q2 2014/15	19	32			
Q3 2014/15	10	25			
Q4 2014/15	9	31			
Q1 2015/16	17	19			
Q2 2015/16	11	24			

#### **Latest Comments:**

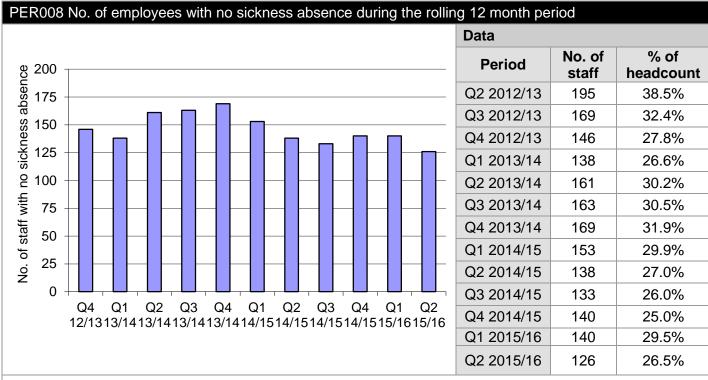

This chart provides information on the number of appointments made to vacant posts during each quarter and whether the post was filled with an internal (1team) or external candidate.

The majority of vacancies are advertised in the first instance internally for a two week period and then externally should the internal recruitment process not be successful. Since the 1 April 2013 on average 39% of vacant posts have been filled using internal candidates following the 1team process. It should be noted that the number of staff appointed in each quarter does not reconcile with the number of posts advertised in the same period as a result of the recruitment and vacancy management process.

The total number of external appointments made during quarter one includes appointments to Built Environment, Business Management, Economy & Communities, Estates, Legal & Democratic, IM&T, Policy & Planning, and Housing Services.

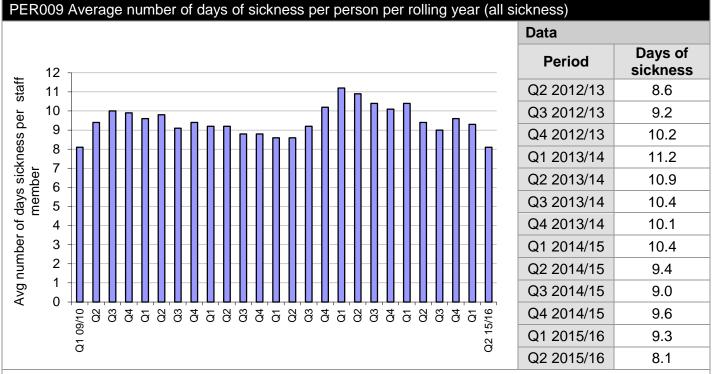

Included in the number of staff who have been appointed following the 1team process includes moves to Business Management, Policy & Planning, Built Environment, Economy & Communities, Housing Services and Legal & Democratic.

## Attendance and Sickness Indicators

**Latest Comments** – This chart provides data for the number of employees with no sickness absence on a rolling twelve month period as at the end of each quarter (30 June, 30 September, 31 December and 31 March).

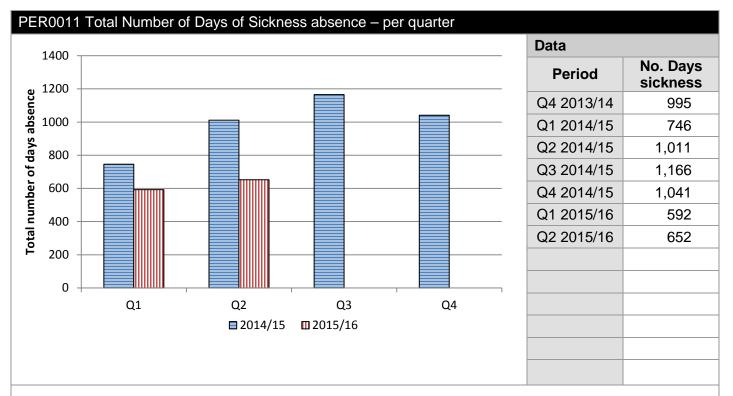

There has been a small reduction in the number of staff who have not taken any sickness in the twelve month period when compared to the previous period.

**Latest Comments** – This chart provides data for the average number of sickness days taken per staff member across the whole Council on a rolling twelve month period as at the end of each quarter (31 March, 30 June, 30 September and 31 December).

The sickness absence figure for the twelve month period ending 30 September 2015 (Q2 2015/16) is 8.1 days sickness per member of staff which is a decrease of 1.2 days when compared to the previous period.

The average sickness level across the Council is now at its lowest for over 5 years, when it was 8.1 days per fte in 2009.

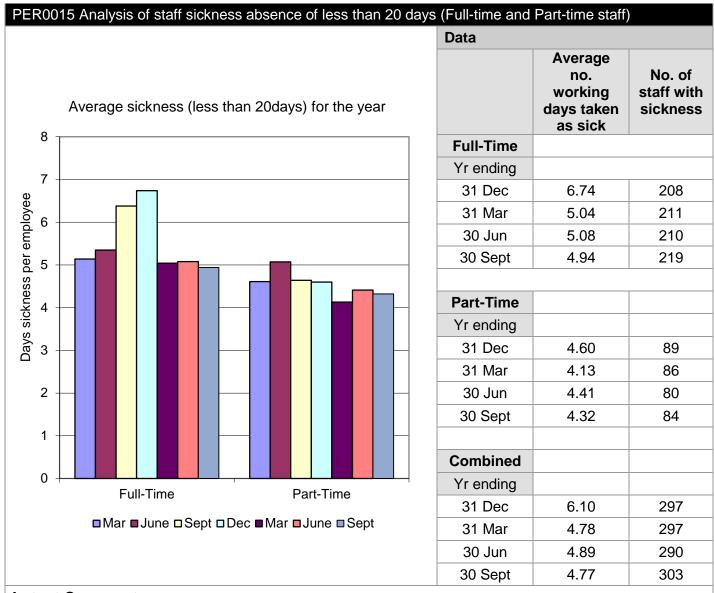

**Latest Comments** – This chart presents the total number of days taken as sickness absence by staff in each three month period (quarter) and was requested at the June meeting of the Committee.

The data at this level is only available on a quarterly basis going back to 1 January 2014.

Generally the number of days taken as sickness will increase during the winter months when staff are more likely to take absence due to colds, flu and infections and then fall during the spring and summer months.

However, when comparing like for like quarterly periods, the trend is downwards showing a reduction of 359 days taken as sickness absence during Q2 2015/16 when compared to Q2 2014/15.

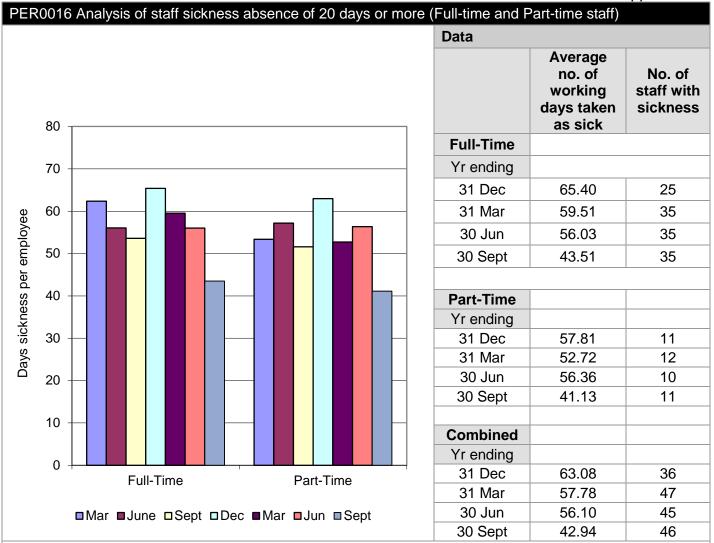

#### Latest Comments –

This chart shows the average number of days sickness absence per City Council employee where the total absence was **less** than 20 days in the twelve month period ending the 31 March, 30 June, 30 September and 31 December. Staff that had no sickness in the period are excluded from these figures. The data is further analysed between full-time and part-time staff.

For the year ending 30 September 2015, 84 part-time and 219 full-time staff each took a total of less than 20 days sickness in the 12 month period.

The total number of days taken as sickness, where the total was less than 20 days per employee was 1,444 days (1,081 days by full-time staff and 363 days by part-time staff). Please also refer to page 5 showing the total number of staff split between full time and part time.

#### **Latest Comments -**

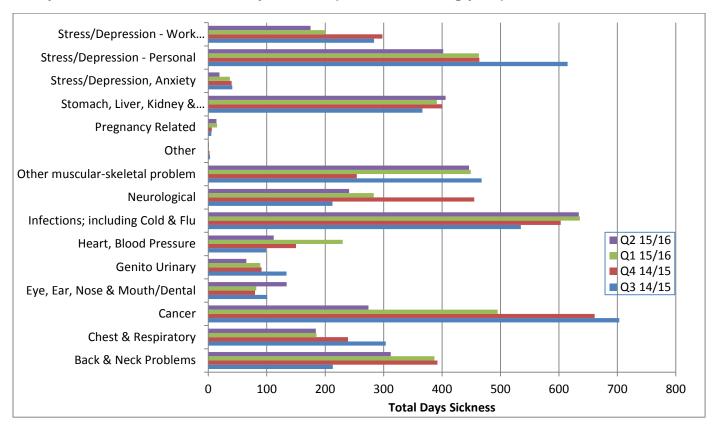

This chart shows the average number of days sickness absence per City Council employee where the total absence was 20 days or more in the twelve month period ending the 30 June, 31 March, 31 December and 30 September. The data is further analysed between full-time and part-time staff.

For the year ending 30 September 2015, 11 part-time and 35 full-time staff each took 20 days or more sickness in the period.

The total number of days taken as sickness, where the total was 20 days or more per employee was 1,975 days (1,523 by full-time staff and 452 by part-time staff).

The average length of sickness for the year ending 30 September 2015 for both part-time and full-time staff, where the total was 20 days or more is 42.94 days.

# Analysis of Sickness Absence by Reason (12 month rolling year)

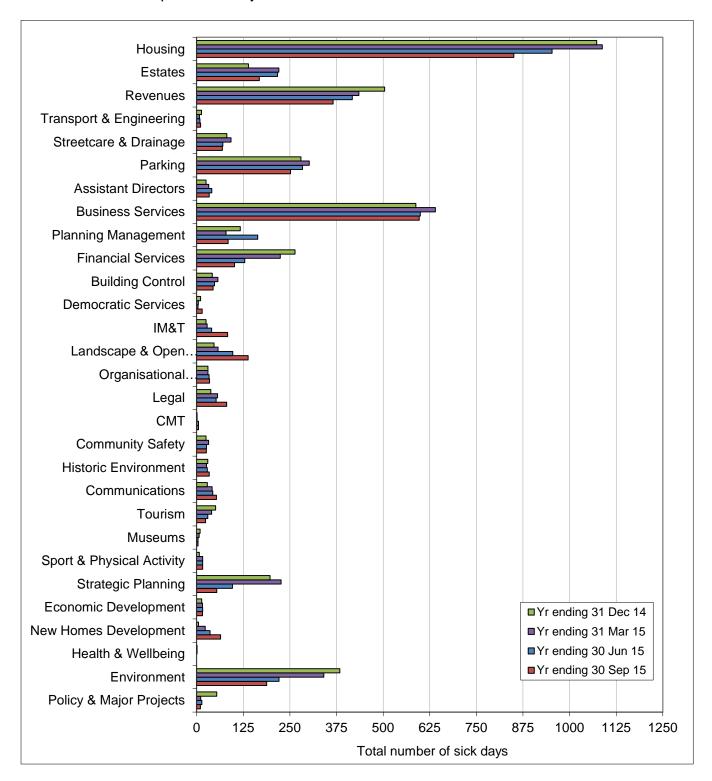

#### **Latest Comment:**

The reason for the highest combined of short term and long term sickness absence has in the past been stress and depression for personal reasons. Through regular monitoring of sickness absence and effective case management it was identified that a number of staff were undergoing treatment for cancer. This has led to the creation of a specific absence category being added to the system to record this type of absence. This allows Human Resources to ensure that appropriate support is available to the individual and colleagues. It should be noted that in these cases they can be shown in both long and short term absence where the Council facilitates the continued working alongside treatment following medical advice and any appropriate adjustments that are required.

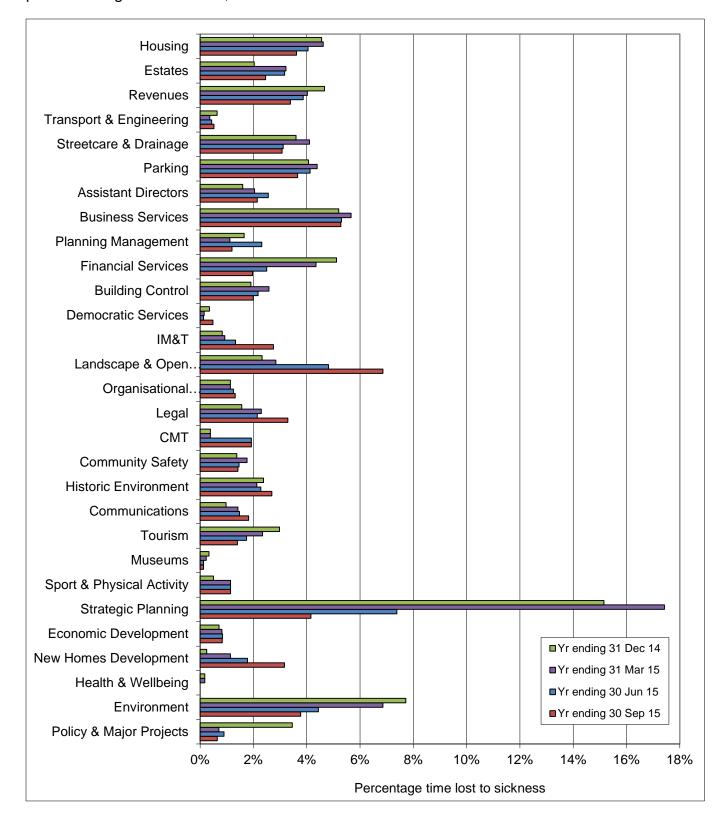

All Sickness by Absence Reason (Days)								
Reason Summary	Q2	Q3	Q4	Q1	Q2			
	2014/15	2014/15	2014/15	2015/16	2015/16

# Sickness Absence - further information

The chart below gives details of the total number of sickness days absence by team as a percentage of total available days for the 12 month period ending 30 September 2015. By way of a comparison the figures for the twelve month period ending 30 June 2015, 31 March 2015 and 31 December have also been included. The total number of days available per member of staff does not take account of public holidays or annual leave entitlement

The following chart gives details of the total number of sickness days by team for the 12 month period ending 30 September 2015. By way of a comparison the figures for the twelve month period ending 30 June 2015, 31 March 2015 and 31 December 2014 have also been included.

# Percentage of completed appraisals by team

This chart shows the percentage of appraisals completed and entered onto the Selima HR system as at 29 October 2015 compared to those as at 17 September 2015.

The data in the chart refers to the completion of the annual appraisals that usually take place during February and March of every year.

During September and October, mid-year appraisals are normally carried out and these are not reflected in the chart below.
