All of the Council's publicly available agendas, reports and minutes are available to view and download from the Council's [Website](#) and are also open to inspection at the offices of the council. As part of our drive to minimise our use of paper we do not provide paper copies of the full agenda pack at meetings. We do however, provide a number of copies of the agenda front sheet at the meeting which contains the QR Code opposite. Scanning this code enables members of the public to easily access all of the meeting papers on their own electronic device. Please hold your device's camera or QR code App over the QR Code so that it's clearly visible within your screen and you will be redirected to the agenda pack.

Amendment C3: No sound amplifying equipment shall be installed or used within or surrounding the garden building hereby approved, including the use of musical instruments unless this is in accordance with any Temporary Event Licences granted.

Reason: To protect the amenities of the occupiers of nearby properties, and to accord with the Premises License (PREM253 - 20/00779/LAVDPS)

Feedback from Curdridge Parish Council (received 10.06.2022):

“Resolved DO NOT OBJECT to the proposed application and ask that in the event that Winchester City Council are minded to grant planning permission, consideration is given to including the following planning conditions which would ensure the proposals are delivered in accordance with the permitted documentation:

- i) *the Applicant has provided a noise assessment as part of the application and provided supporting statements at paragraph 9.4 that the noise levels will be provide “a modest reduction”. Therefore we ask that this is formalised by way of condition to ensure such noise parameters (as defined by the Applicant’s noise assessment) are not exceeded.*
- ii) *the Applicant has stated in their letter of 19 April 2022 that there is no material difference in capacity of the pub and therefore this should be given to monitoring by way of Car Parking Management Plan which monitors the parking and provides local residents with the opportunity to raise concerns with WCC should the garden building increase vehicles / parking.*

Members duly note that the applicants will retain their public right to make independent Licence Applications to Winchester City Council for events.”

In regards to noise, Condition 3 has been added to enforce what has been controlled within the premises license (no external speakers are allowed). The premises licence has controls on noise level monitoring. In regards to parking, Condition 8 has been added to ensure the existing 32 spaces are maintained. The application has been considered based on existing parking levels and as there was no further objection or recommendation from the HCC Highways Authority when comparing the existing parking to the proposed layout, it is considered there is no justification for a Car Parking Management Plan condition within this application.

A further objection received from Rob Sellen, Paris Smith, on behalf of neighbour Matthew Cross (received 14.06.2022):

1. Building out of character with the area
2. Condition 8 (parking retention) does not address overspill upon the public

highway; use of pizza service as a takeaway business adds to the highway impact (mentions a listing on Deliveroo)

3. Planning would have no control over the number of events held (impacts to parking and neighbouring amenities)

Officer's response: In regards to character, the proposal includes a condition to soften the building's appearance by further planting and this has been assessed as acceptable in the officer's report.

For parking, the proposal is to consider the impacts of parking with the building's placement within an existing pub garden and its use as a formal pizza kitchen, to replace the portable pizza kitchen option used during pandemic lockdowns. The applicant has confirmed there was some takeaway service during lockdown, but there is no interest in pursuing that part of his business currently. The application has assessed the impacts of the proposed building based on current parking availability and is considered appropriate within this application due to the feedback and assessment from the Highway Authority and officers.

With the number of events allowed, the larger events that exceed controls of what is normally allowed within the premises license (for up to 12 events/year) require a temporary events notice (for example, hours of use, music/entertainment restrictions). However, the building's use is considered appropriate for any other events normally held such as birthdays/christenings/wakes as the patron attendance will replace what would be allowed within the pub building or within the pub garden – as long as the events and use comply with the premises license (restricted hours, no outside music/amplification). In this proposal, it is considered that controls on the attendance of patrons to the site would be unjustifiable as the building's retention will be for additional cooking service and covered seating that will replace what was existing to the site.

The additional comments received do not alter the officer's recommendation.
