1. The ward members had looked closely at the application and had engaged with representatives of McDonalds.
2. They recognised that the application could provide a range of job opportunities for local people and that some local people may welcome a new fast-food restaurant.
3. Many residents were concerned about the impact of additional traffic in an already busy area.
4. It was felt that the transport assessment did not adequately take into account traffic on surrounding roads for example Easton Lane and Wales Street and it ignored the risk of people cutting through the Winnal Estate.
5. In addition to an increase in road congestion, the application would also increase local levels of noise pollution, air pollution and litter.
6. It was understood there was a desire to open 24 hours a day and there were concerns about the nighttime traffic this would generate both from restaurant customers and delivery vehicles.
7. This proposal could create an unofficial service station and would encourage vehicles to exit the M3 at junction 9.
8. That this proposal ran contrary to the aims of the Winchester Movement strategy and the locally declared climate emergency by encouraging additional car journeys.

The committee proceeded to ask questions and debate the application.
