Update

Results of a recent bat survey have been received after the report was written and the following additional conditions are to be added to the recommendation:

11 Details of any external lighting of the site shall be submitted to, and approved in writing by the Local Planning Authority prior to the commencement of the development. The lighting scheme should be in accordance with Guidance Note 08/18 produced by the Bat Conservation Trust and Institute of Lighting Professionals. This information shall include a layout plan with beam orientation and a schedule of equipment in the design (luminaire type, mounting height, aiming angles and luminaire profiles). The lighting shall be installed, maintained and operated in accordance with the approved details unless the Local Planning Authority gives its written consent to the variation.

11 Reason: To protect the appearance of the area, the environment and protected

species from light pollution.

12 The mitigation measures recommended within section 5 of the Ecological Impact Assessment Final Document July 2019 (ECOSA, July 2019) shall be implemented during the construction period and a Biodiversity Enhancement Plan shall be submitted to, and approved in writing by the Local Planning Authority prior to the commencement of the development. This shall include the location and details showing bird/bat nest boxes/roost boxes. The enhancement provisions shall be sited prior to the development coming into its intended use and retained thereafter.

12 Reason: To maintain and enhance biodiversity.

Update

Updated Site Plan 7462-D100 submitted 17.07.2019 amending floorspace of Plot 3 from 101.8sqm to 112.3sqm.

Condition 3 amended to the following:

03 The integral garage space in Plot 2 hereby permitted shall only be used for parking and ancillary storage purposes and for no other use at any time. The additional roofspace to be created in Plot 3 is to be used for ancillary storage purposes and for no other use at any time and notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (as amended), no windows or dormers, other than those expressly authorised by this permission, shall be constructed in the roof of Plot 3 as permitted.

Reason: To accord with the terms of the application and to ensure that the development remains compliant with Policy CP2 of Local Plan Part 1.

Update

A further objection was received on 16/07/19 from Ian Ellis, Southern Planning Practice, in response to the officer's Committee report. The main considerations within this letter are set out below:

- The objection raises concerns with the fact that the application was not re-advertised and that a new public consultation period was not instigated following the submission of the applicants retail impact assessment.
- There are concerns that the summary of objection and support comments within the officer report is inaccurate and that the number of objections has been unfairly represented.
- It is felt that the outdoor display areas should not be included within the total retail floor space as they are not subject to condition 2 of the 13/02145/FUL. The objector suggests that the application should be withdrawn until the above points are addressed.

In section headed 'Consultations':

WCC Economic Team were consulted on the application and submitted an objection to the proposal. Following this objection, and following suggestions contained within the economic response, further retail studies have been commissioned by the applicant which demonstrates that there is no evidence which suggests Long Barn is detrimental to the local businesses within New Alresford Town Centre.

It has not been possible to arrange a follow up meeting with WCC Economic Team since the new retail information has been submitted due to staff holidays. However, the information has been assessed by the officer and WCC Strategic Planning Team and it is considered to overcome the previous economic objection to the application.
