The report refers to ICNIRP. This abbreviation stands for “International Commission on Non-Ionizing Radiation Protection”.

Within the planning history section of the officer’s report, the officer refers to planning application 17/01930/TCP for the proposed installation of a 17.5m pole, supporting 3 no antenna, associated ground based equipment cabinets and ancillary development which was refused permission on the Telecom Site, Corner Of Athelstan Road and Andover Road. The reason for refusal was due to the proposed development being contrary to Policies CP13 of the Winchester District Local Plan Part 1 2013 and DM15, DM16 and DM22 of the Winchester District Local Plan Part 2 2017. The application was then allowed at appeal on the 17<sup>th</sup> October 2018. Ref: APP/L1765/W/18/3197522. The Inspector concluded within the appeal decision that ‘Whilst I acknowledge that there would be limited harm to character and appearance of the area from the siting of the pole, this would be outweighed by the public benefits arising from the proposal.’

**Update**

Further considerations have been given to condition No.2 in regards to the operating hours for the site. With the proximity of the student accommodation,

nature of the surrounding area and the mitigation measures proposed there will be a low impact as a result of the site; however the public holidays relate to a handful of days per year with most of which fall outside of term time for students. Therefore the condition is to be altered to allow operating hours during public holiday as there is considered to be no significant adverse harm to the amenities of nearby occupiers.

Condition 2 should be amended as follows:-

The use hereby permitted shall only open to customers within the following times  
0830 - 1830 Monday to Saturday and 0930 - 1630 on Sundays.

Reason: To protect the amenities of the occupiers of nearby properties.
