and Monitoring Officer

All of the Council's publicly available agendas, reports and minutes are available to view and download from the Council's [Website](#) and are also open to inspection at the offices of the council. As part of our drive to minimise our use of paper we do not provide paper copies of the full agenda pack at meetings. We do however, provide a number of copies of the agenda front sheet at the meeting which contains the QR Code opposite. Scanning this code enables members of the public to easily access all of the meeting papers on their own electronic device. Please hold your device's camera or QR code App over the QR Code so that it's clearly visible within your screen and you will be redirected to the agenda pack.

Update

Some of the proposed conditions have been amended following discussions with the applicant. The changes are to allow flexibility, either in terms of the timing of the submission of details (condition 7); or to distinguish separate elements of the application as these may be built out by different contractors (conditions 15, 18 and 19); or to allow some flexibility in how parking standards are applied (condition 28). The amended conditions are as follows with changes in bold text:

7 **Within three months of development starting on either the hotel or the restaurant in Phase 1**, interim BREEAM Certificates shall be submitted to and approved in writing by the local planning authority. These shall demonstrate that the hotel achieves 65% of BREEAM points and 5 Ene 01 credits and the restaurant achieves 60% of BREEAM points and 5 Ene 01 credits, unless otherwise agreed in writing by the local planning authority, The development shall be built in accordance with these approved details.

15 **Prior to the occupation or use of the hotel or restaurant buildings in Phase 1**, a landscape management plan, including long term design objectives, management responsibilities and maintenance schedules for all **landscaped areas associated with either the hotel or restaurant**, shall be submitted to and approved in writing by the local planning authority. **Prior to use of the multi-storey car park a landscape management plan including long term design objectives, management responsibilities and maintenance schedules for all landscaped areas associated with the multi-storey car park and all the common parts in Phase 1 not associated with the hotel or restaurant shall be submitted to and approved in writing by the local planning authority.** The landscape management plans shall be carried out in accordance with the approved details.

18 Prior to the occupation or use of the **hotel and restaurant** buildings in Phase 1, a Lighting Scheme **for each of the buildings and their external areas** shall be submitted to and approved in writing by the local planning authority. **Prior to use of the multi-storey car park in Phase 1, a Lighting Scheme for the multi-storey car park and all the common parts in Phase 1 not associated with the hotel or restaurant shall be submitted to and approved in writing by the local planning authority.** All lighting for each of these buildings shall be installed, maintained and operated in accordance with the approved Lighting Scheme.

19 Prior to the occupation or use of **each building, structure or infrastructure** in Phase 1, the roads, parking spaces, service areas, cycleways and footways relating to **the relevant building, structure or infrastructure in Phase 1** shall be constructed, surfaced and marked out in accordance with the approved plans.

28 The provision of parking for cars and other vehicles and cycles for the light industrial units and nursery hereby approved shall comply with parking standards as a minimum, **unless otherwise agreed in writing by the local planning authority.**

In addition to these changes, it has been agreed with the applicant that reptiles on the site should be retained rather than relocated off-site. This is preferable from a biodiversity point of view. The condition below is therefore proposed to be added, and the requirement for a contribution towards relocation of reptiles removed from the s106 legal agreement:

Prior to development starting on Phase 1, details of a habitat creation scheme to ensure reptiles can be retained on site, shall be submitted to and approved in writing by the local

planning authority. Works shall be undertaken in accordance with the approved details.

Reason: In the interests of biodiversity and to ensure adequate mitigation is secured to protect the reptiles on site during both the construction and operational phases of the development.
