All of the Council's publicly available agendas, reports and minutes are available to view and download from the Council's [Website](#) and are also open to inspection at the offices of the council. As part of our drive to minimise our use of paper we do not provide paper copies of the full agenda pack at meetings. We do however, provide a number of copies of the agenda front sheet at the meeting which contains the QR Code opposite. Scanning this code enables members of the public to easily access all of the meeting papers on their own electronic device. Please hold your device's camera or QR code App over the QR Code so that it's clearly visible within your screen and you will be redirected to the agenda pack.

In section headed 'Impact on neighbouring property', the following is added to paragraph 3.

Plot 3 does contain two windows in the north western elevation, one at ground floor level and one at first floor level. These windows will serve stairwells which are considered to be an internal area of low amenity value, and are not considered to generate a significant level of overlooking to the properties within the Kings Barton development to north of the site. This does not affect the officer recommendation to approve the application.

Update

Letter received from Cllr Woodman of Swanmore Parish Council suggesting that the attenuation pond at the front of the site could and should be an underground storage tank as per the other large one found on the site. Benefits of this are set out as:

- 1) The amount of water that could be stored would be greater.
- 2) The area can be covered and used as a car park for both the school and visitors to residents (permeable hoggin surface like the others in the village)
- 3) Provides off road parking space for the cars that will have to move from New Road as part of the TRO (which we also welcome).

Email received from owner of neighbouring property (Belmont Farm) to the effect

that he has never been contacted by Persimmon Homes to request permission for ecological surveys on his land.

Typing error on page 130 – comment by Hampshire Swift Society should read ‘many more’.

**Update**

**Drainage:**

The site is in flood zone 1 and therefore at low risk of flooding. A large septic tank exists on the site however a sewer is indicated close by that should be investigated. If there is no mains sewer close by a package treatment plant should also be considered.

A soakaway exists on the site that is suitable for 2 dwellings. It is considered that an additional soakaway would be required to accommodate the additional dwelling and therefore it is considered appropriate to include a drainage condition.

15. Detailed proposals for the disposal of foul and surface water shall be submitted to and approved in writing by the Local Planning Authority before the commencement of the development hereby permitted.

The approved details shall be fully implemented before development commences.

Reason: To ensure satisfactory provision of foul and surface water drainage.

**Additional comment Received:**

Shedfield Parish Council is particularly concerned to reduce local over-development. Pricketts Hill in particular and the surrounding area generally already contains very many mobile homes, and any addition would amount to unacceptable over-concentration. There are already a number of sites that are specifically authorised for travellers and or travelling show persons. WCC is obliged to ‘ensure that the scale of such sites does not dominate the nearest settled community’.
