Strategic Director and Monitoring
Officer

All of the Council's publicly available agendas, reports and minutes are available to view and download from the Council's [Website](#) and are also open to inspection at the offices of the council. As part of our drive to minimise our use of paper we do not provide paper copies of the full agenda pack at meetings. We do however, provide a number of copies of the agenda front sheet at the meeting which contains the QR Code opposite. Scanning this code enables members of the public to easily access all of the meeting papers on their own electronic device. Please hold your device's camera or QR code App over the QR Code so that it's clearly visible within your screen and you will be redirected to the agenda pack.

Update

Since the publication of the addendum report 56 further letters of objection have been received. These letters do not raise any new material planning considerations not already covered in the reports. These representations are available to members via the Council's website on the page which concerns the current application.

Slide 49 on the committee presentation document contained a superceded version of drawing VTX-STL-XX-ZZ-DR-A-XXXX-0301. This has been corrected to include the revised version (submitted 1st October 2021) - revision PL02.

A further letter from Harrison Grant solicitors (representing Dr Michael Heard) has been submitted outside of the period in which additional representations were invited. This is addressed to members of the planning committee and is available for members to view on the Council's website.

A correction is required to the addendum report on page 22 concerning how the height of the building is expressed on the elevation plans. In the 5th paragraph under the heading 'Design/layout' the Applicant has confirmed that the North West corner of the building is 9.25m above internal ground floor formation level, which equates to 48.20 m AOD.

Update

An additional comment has been submitted from Cllr Lumby in his capacity as a HCC councillor. His comments are copied below in full for ease of reference.

This email is sent in my capacity as Hampshire County Councillor for the Meon Valley Division. This division includes the application centre for this matter. It is not sent in my capacity as a Winchester City Councillor, as this lies outside my ward.

First, I appreciate this email is out of time for comments, given it is coming to committee this week. I did attempt to make comments online but this was not possible, I assume for that reason. Nonetheless, I should be grateful if you could draw this email to the attention of the committee.

Secondly, I also appreciate that it is unusual for a county councillor to comment on a planning application being dealt with by the district council. The reason I am doing so is that the wider Shedfield Equestrian Centre has a mixture of areas where HCC is actually the planning authority. It is in that context that I am writing. I am not commenting on matters within the remit of WCC and indeed am neutral about the application itself.

You refer in your report to some of the complicated planning history at the wider site. Parts of the site, as mentioned, are regulated by HCC planning, parts by WCC planning and the Environment Authority also has a role. This complex position is compounded by a long history of individual consents and multiple uses which make it difficult to identify a coherent whole.

The site owners are alleged to have carried out a number of breaches of planning across these different areas and all three authorities are working together to produce a co-ordinated response to this. I understand that WCC Enforcement for example are working on a report with proposed next steps.

Each of HCC, WCC and the EA have received numerous complaints from the parish council and local residents in relation to the use of the site, ranging from noise and dust to allegedly unauthorised activities. I can attest to this having received a good number myself and having seen some received by local WCC councillors.

This may or may not be an appropriate application and that is of course for the committee to decide. However, given the interlocking nature of the various parts of this site, the ongoing alleged breaches and the lack of a comprehensive approach for the site as a whole, I would request that consideration of this application is deferred until the ongoing investigations are complete. That way, the application can be considered as part of the wider site and the response to it, rather than as an isolated island.

Cllr Hugh Lumby
 Member for the Upper Meon Valley ward
 Hampshire County Councillor for the Meon Valley Division

It is considered that the majority of the unauthorised works and uses are outside of the red line plan and therefore cannot be considered as part of this application. Notwithstanding this, the cumulative impact on the site has been considered within the officer report. A deferral of the application is not reasonable, this application must be considered on its own merits. The enforcement issues are being addressed separately.
