**Update**

The Parish council have sent in additional comments in objection to the proposal:

**Representation from Shedfield Parish Council**

The site has been identified as being in an area where new dwellings are not normally permitted. MTRA 4 allows small scale sites for low key tourist accommodation appropriate to the site, location and the setting, but only where development would not cause harm to the character and landscape of the area or neighbouring uses or create inappropriate noise/light and traffic. Shedfield Parish Council believe this development is not appropriate to the site, location and setting and would cause harm through additional noise, light and traffic.

After a planning officer found 1 mobile home, 1 motor home and 2 caravans located on the site, the applicant made a successful retrospective application (19/01918/FUL) for temporary permission for 1 mobile home, to be used non-residentially in connection with the animals (horses, pigs, chickens and bees) kept on the site and specifically for butchering pigs and storing their carcasses.

The applicant cited his wish to advance his career as a smallholder and butcher to justify the mobile home, but this wish, like the animals, seems to have disappeared, and no longer figures in the applicant's plans. It is alleged that the conditions of planning permission 19/01918/FUL have been breached and that the mobile home has been used as residential accommodation. There are many local precedents where applicants have obtained spurious planning permission but subsequently used accommodation for different purposes.

The only access to the site is via a well-used footpath which is a scheduled right of way, but not a bridleway. The public would suffer a loss of enjoyment of the public footpath if this application were permitted. Weight should be given to the professional opinion of Hampshire County Council's Countryside Planning Support Officer objecting to the application. His report underlines the likely damage to public enjoyment caused by construction and subsequent use as holiday lets. As he notes, the applicant does not own the track. Contrary to the planning officer's report, the applicant has the right to use it for private but not for commercial purposes. The track becomes flooded in winter and is unsuitable for additional traffic. Upgrading the access route from an unmade track is not within the power of the applicant.

There is no suitable provision for drainage and the siting of a compost toilet is likely to pollute the nearby stream.

In the past, Wickham Festival has taken place for three days each year but owing to the impact of the pandemic it may not be held again. The festival is therefore no justification for this application.

<p><b>Officer Presenting: Rose Lister</b></p> <p><b><u>Speaking</u></b>  <b>Objector:</b> Stephen Jupp –On behalf of Mr &amp; Mrs Lamb  <b>Parish Council representative:</b> Cllr Mike Hollis  <b>Ward Councillor:</b> Cllr Angela Clear  <b>Supporter:</b> None</p> <p><b><u>Update</u></b></p> <p>Concerns have been raised regarding the type of battery and what would happen in the event of a leak.</p> <p>The exact type of battery is unknown however the most likely would be lithium ion batteries. They are very unlikely to leak however in this unlikely event this would be covered by the Contaminated Land Act.</p>
