2 letters from neighbours and confirmation of agreement with from a further neighbour, sent to all Members of the Planning Committee highlighting concerns over:

- Conflict with pre-application advice
- Conflict with considerations raised in the report for the previous extension to No.13 in 2014.
- States that the officer report does not place sufficient importance on the significance of the side windows and this aspect has not been properly considered.
- Request for a site visit, but no feedback.
- Misleading representation submitted by applicant and agent, notably that top of landing window shown as 5m high on plans rather than 4.3m high in reality
- Lack of clear measurements
- Site of outbuilding not used by family.
- Workshop has potential to cause significant noise impact
- The open space is vital to the outlook from the windows in the side elevation of no.15 and its loss will result in adverse impact on the character of the area and set a precedent that could affect Colden Common as a whole. Will also effectively land lock residents of Kiln Green, reducing views to and from Hack Drive, and have an adverse impact on the setting of the adjacent footpaths, going against the Village Design Statement.
- The previous overgrown nature of the site does not justify the building of a permanent structure.
- Design of the building completely inappropriate and its size is such that it has the potential to be converted into a house.
- Inconsistency in the report in terms of reference to the outbuilding and the uses that it is to be put to.
- Reference to permitted development is not relevant as it is not within curtilage and would be too close to footpath to be permitted, even if PD rights had not been removed from Hack Drive.
- Officer fails to take into account the cumulative impacts of the proposal that are sufficient to justify a refusal.
- Loss of parking as people won't park in front of a garage

The planning history of this site has been investigated and the boundary of the original consent for the development 1963 (WIR/9799/1) extends to the footpath running along the eastern side of the site. The subsequent planning permission for the extension to Hack Drive, allowing 4 additional houses, was submitted in 1970. The available plans do not show any specific designation of the land.
