| Internal Audit Plan 2022-23 to 2024-25 | | 7 – 14 |

Introduction

The requirement for an internal audit function in local government is detailed within the Accounts and Audit (England) Regulations 2015, which states that a relevant body must:

‘Undertake an effective internal audit to evaluate the effectiveness of its risk management, control and governance processes, taking into account public sector internal auditing standards or guidance.’

The standards for ‘proper practices’ are laid down in the Public Sector Internal Audit Standards [the Standards – updated 2017].

The role of internal audit is best summarised through its definition within the Standards, as an:

‘Independent, objective assurance and consulting activity designed to add value and improve an organisations’ operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes’.

The Council is responsible for establishing and maintaining appropriate risk management processes, control systems, accounting records and governance arrangements. Internal audit plays a vital role in advising the Council that these arrangements are in place and operating effectively. The Council’s response to internal audit activity should lead to the strengthening of the control environment and, therefore, contribute to the achievement of the organisation’s objectives.

The aim of internal audit’s work programme is to provide independent and objective assurance to management, in relation to the business activities, systems or processes under review that:

- the framework of internal control, risk management and governance is appropriate and operating effectively; and
- risk to the achievement of the Council’s objectives is identified, assessed and managed to a defined acceptable level.

The internal audit plan provides the mechanism through which the Chief Internal Auditor can ensure most appropriate use of internal audit resources to provide a clear statement of assurance on risk management, internal control and governance arrangements. Internal Audit focus should be proportionate and appropriately aligned. The plan will remain fluid and subject to on-going review and amendment, in consultation with the relevant Strategic Directors and Audit Sponsors, to ensure it continues to reflect the needs of the Council. Amendments to the plan

will be identified through the Southern Internal Audit Partnership's continued contact and liaison with those responsible for the governance of the Council.

Your Internal Audit Team

Your internal audit service is provided by the Southern Internal Audit Partnership. The team will be led by Antony Harvey, Deputy Head of the Southern Internal Audit Partnership, supported by Mark Norton, Audit Manager.

Conformance with internal auditing standards

The Southern Internal Audit Partnership service is designed to conform to the Public Sector Internal Audit Standards (PSIAS). Under the PSIAS there is a requirement for audit services to have an external quality assessment every five years. In September 2020 the Institute of Internal Auditors (IIA) completed an external quality assessment of the Southern Internal Audit Partnership. The report concluded:

'The mandatory elements of the International Professional Practices Framework (IPPF) include the Definition of Internal Auditing, Code of Ethics, Core Principles and International Standards. There are 64 fundamental principles to achieve with 118 points of recommended practice. We assess against the principles.

It is our view that the Southern Internal Audit Partnership conforms to all 64 of these principles.

We have also reviewed SIAP conformance with the Public Sector Internal Audit Standards (PSIAS) and Local Government Application Note (LGAN).

We are pleased to report that SIAP conform with all relevant, associated elements.'

Conflicts of Interest

We are not aware of any relationships that may affect the independence and objectivity of the team, and which are required to be disclosed under internal auditing standards.

Council Vision

The 'Council Plan' adopted in January 2020, and updated in February 2021, outlines the Council's key ambitions over five years (2020-2025) with the overarching priority to tackle the climate emergency and create a greener district; underpinned by four further priorities (2) Homes for all; (3) Living well; (4) Vibrant local economy; and (5) Your services, Your voice.

Council Risk

The Council have a clear framework and approach to risk management. The strategic risks assessed by the Council are a key focus of our planning for the year to ensure it meets the organisation's assurance needs and contributes to the achievement of their objectives. We will monitor the strategic risk register closely over the course of the year to ensure our plan remains agile to the rapidly changing landscape.

| Code | Risk Description |
|-------|---|
| CR001 | Given competing demands and multiple complex priorities, the risk is that the Council does not maintain capacity to deliver services |
| CR003 | Decisions made by the council are challenged due to a lack of a strong evidence base, customer insight and engagement with change |
| CR004 | Failure to have plans and processes in place to recover and maintain services after a major incident (including pandemic) that has a significant impact on the ability of the Council to provide its services |
| CR006 | Faltering partnerships due to lack of shared vision, conflicting demands and individual partner failure. Poor scoping and commissioning of partners |
| CR007 | Lack of sufficient funding and/or escalating costs over the medium term reduce financial viability and inability to achieve a balanced budget |
| CR008 | Availability of suitable sites to meet the strategic need for building new homes |
| CR009 | Failure in cyber security leaving the council exposed to phishing and other attacks leading to compromised IT systems and data loss |
| CR010 | Responding to Climate Change Emergency and reducing the council and district carbon emissions |
| CR011 | Lack of preparedness and incapability to respond to events caused by climate change. |

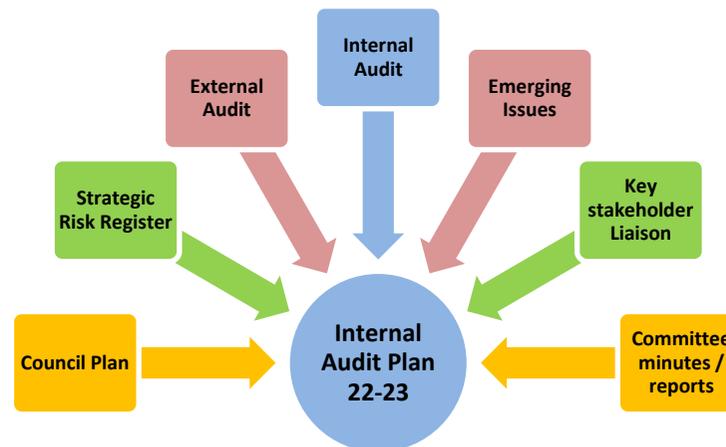

Developing the internal audit plan

We have used various sources of information and discussed priorities for internal audit with:

- Executive Leadership Board
- Corporate Head of Finance
- Audit and Governance Committee.

Based on these conversations with key stakeholders, a review of key corporate documents and our understanding of the organisation the Southern Internal Audit Partnership have developed an annual audit plan for the forthcoming year (2022-23) together with an indicative plan for 2023-24 and 2024-25.

The Council are reminded that internal audit is only one source of assurance and through the delivery of our plan we will not, and do not seek to cover all risks and processes within the organisation. We will however continue to work closely with other assurance providers to ensure that duplication is minimised and a suitable breadth of assurance is obtained.

Internal Audit Plan 2022-23 to 2024-25

| Audit Review | Indicative Scope | Council Plan / Corporate Risk Register | 22-23 | 23-24 | 24-25 |
