Subject: Re: Exton Park

I am writing with my support for Exton Park and they're recent licensing application.

Having had the pleasure of visiting the site on a few occasions I've always been impressed not only by the excellent quality of wine that they produce, but also by Exton Hall, the new and magnificently designed venue that can be hired for events and private functions.

The estate is managed and run by a thoroughly skilled and professional group of individuals who are a credit to the wine industry. Hampshire is a glorious county and incredibly lucky to have such an excellent venue within its region.

Another reason I've enjoyed re visiting Exton Park over the years, is down to the safe environment it offers my children, who've been able to roam without concern. The site is a reassuringly safe setting amongst its acres of vines which can be explored at great length by whilst the glorious sweeping Hampshire views breathe a bit of life back into the tired parents!

It's a wonderful day out for all, and we can't wait for our next visit.

Best wishes
