

## MEMORANDUM

To: Philip Somarakis Date: 08 April 2024  
CC: Tom Power, Sustainable Acoustics team  
From: Diego Cordes Ref: 24-0049-0 Brockwood Festival -  
Acoustic Advice - Tech Memo 02-04  
NMP Review DC.docx

**SUBJECT: Acoustic Review of Brockwood Festival Noise Management Plan – Sound Propagation  
ADDENDUM**

---

**Inconsistent assessment** – The Festival’s acoustic assessment is inconsistent with the 5 consecutive day license application, as it only refers to a 2 day event for which guidance is much less stringent. For this application, guidance recommends a day time upper limit of 10 dB over background, or 39dB, when considering the penalty imposed for consecutive day events.
