

Social Value delivery at Berewood in 2025

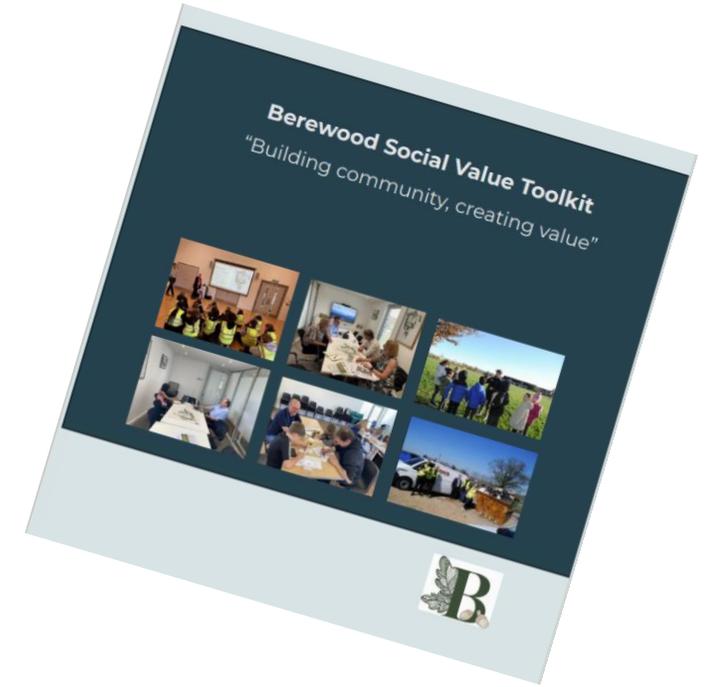

Ecology & wildlife conservation – Fostering interest and ownership within the local community with regards to the development and its wildlife as well as looking to further enhance the local ecology for the betterment of the development.

Education and training – Supporting local training providers with their careers programmes; brokering introductions and resource support from our supply chain partners linked to careers education. As well as ad hoc learning and training support for residents / local partners.

Resident communication – Developing clear and easy avenues for developers, contractors and Grainger plc to provide communication and updates in respect of the development and its associated works.

Skills & support – Working with partners and organisations to develop workshops, tools and presentations to help the local community with basic skill development and providing support to families and young people with resources to enhance their skills.

For every £1 from Berewood Community Development fund we unlock £4 in social value contributions
