Update

Addition of condition 15 which reads –

Development shall cease on site if, during any stage of the works, unexpected ground conditions or materials which suggest potential contamination are encountered, unless otherwise agreed in writing with the Local Planning Authority. Works shall not recommence before a site assessment has been undertaken and details of the findings along with details of any remedial action required (including timing provision for implementation), has been submitted to and approved in writing by the Local Planning Authority. The development shall not be completed other than in accordance with the approved details.

NB - potentially contaminated ground conditions include infilled ground, visual evidence of contamination or materials with an unusual odour or appearance.

Reason: In order to secure satisfactory development and in the interests of the safety and amenity of future occupants.

Update

Tree Officer has withdrawn the objection following investigation into the root area of the Horse Chestnut to the west of the outbuilding. There for paragraph 2 of the Landscape and trees section is amended to:

‘The landscape plan shows the removal of a number of smaller trees by the access, track and parking area. The loss of these smaller trees is considered to be acceptable. There is a significant Chestnut to the west of the outbuilding noted as T3 Horse Chestnut in the Arboricultural Impact Assessment (AIA) that has a root protection area within the proposed excavation area, it is considered that this tree does not have a TPO served on it and is not readily visible in the street scene. While the loss of the tree would be lamentable it is not considered to have a high amenity value in the street scene for its loss to warrant a refusal reason.’

The Ecologist comments, last sentence should read ‘The Ecologist raised no objection subject to conditions requiring the measures set out in the Ecological Assessment be followed’
