DESTINATION MANAGEMENT PLAN

2015 - 2020

CONTINUOUS ENGAGEMENT, MEASURABLE SUCCESS

Working with the tourism team at Winchester City Council over the last two years, I have been continually impressed both by the level of business engagement and the results that this activity delivers.

Attending conferences, networking events and sector partnership meetings I regularly witness an energy in the room that comes from a group of people who know that they have something in common. The people in this industry want to make a difference and, based on the performance of the sector over the last six years, they know they can.

This is not achieved without significant public sector support. Winchester City Council invests over £350,000 in tourism every year, providing a team of committed and qualified marketing and business professionals working at the centre of the Partnership.

If you are either looking to set up a tourism business or are already working in the sector I urge you to engage with the Visit Winchester and Heart of Hampshire Destination Management Partnership.

If you are already a member – thank you for being a part of the future

The South Downs National Park is Britain's newest National Park, recognised as a nationally important and diverse area with outstanding natural beauty and rich cultural heritage. With 43 million individual visits every year, the South Downs is one of the South East's most popular tourist destinations.

The beautiful countryside stretches from Winchester to Beachy Head near Eastbourne. Historic houses, works of art and archaeological monuments plentiful, as are wildlife beauty spots.

We want to help people enjoy the South Downs while at the same time protecting and conserving the natural landscape. National Parks are known as 'Britain's Breathing Spaces'.

Underpinning this are the principles of sustainable tourism, responsible car use, observing the Countryside Code and supporting local businesses during your stay.

Together we can conserve and enhance the South Downs for future generations to enjoy.

MARGARET PAREN, OBE

Chair of South Downs National Park Authority

SOUTH DOWNS NATIONAL PARK The Visit Winchester and the Heart of Hampshire Destination Management Partnership was originally founded because local businesses and stakeholders in the tourism sector had strong opinions about what was needed to protect and further the interests of the industry in central Hampshire.

An eight month consultation period with 72 local tourism professionals helped us clarify the forward direction for tourism, namely:

- to join up more behind the scenes in order to make the local tourism infrastructure more coherent;
- to work on a broader destination footprint that made more of the links between rural and city product;
- to deal with recognisable destinations rather than creating new brands with little resonance for consumers.

In August 2011 Winchester City Council launched a destination management partnership with Tourism South East and the South Downs National Park Authority. The income derived from the modest subscription paid by our 65 members and 111 advertisers is reinvested directly into promoting Winchester and the Hampshire area of the South Downs National Park, nationally and internationally.

This way of working has seen the economic impact of tourism in Winchester grow from £292m at the outset of 2010 to £358m by the end of 2015. The number of visitors has also outstripped expectations, rising from 4.3m to 5.6m over the last five years. In East Hampshire tourism saw 7% growth in the first year of the partnership and by 2015 tourism was contributing £198m to the area's economy. In addition to benefits associated with the increased exposure the destinations receive, membership of the partnership offers businesses access to expert advice, discounted training and advertising and significant savings via a raft of high-value bonus packages.

Our challenge is to sustain the growth in tourism whilst ensuring that the infrastructure around the visitor experience is developed in keeping with consumer expectations and demands. We also need to protecting the core appeal of the area – its landscape and historic environment – and factor in the needs of residents. This document looks to recognise this challenge and address it positively.

STRATEGIC CONTENT

- VisitEngland encourages and supports the development of Destination Management Plans throughout England as an essential tool in the delivery of a successful visitor economy. National Government policy encourages destination organisations to become focussed and efficient bodies that are increasingly led by the private sector. Destination Management Plans are one mechanism to achieve this.
- A Destination Management Plan is a shared statement of intent to manage a destination over a stated period of time, articulating the roles of the different stakeholders and identifying clear actions that they will take and the apportionment of resources.
- In these definitions, 'manage' and 'management' are taken in their widest sense. Crucially, destination management includes the planning, development and marketing of a destination as well as how it is managed physically, financially, operationally and in other ways.
- Broadly, a Destination Management Plan is equivalent to a Strategy and Action Plan for Sustainable Tourism in a destination.
- This Destination Management Plan relates to the Economic Prosperity strand of Winchester City Council's Community Strategy 2010–20; and East Hampshire District Council and the South Downs National Park Authority's Partnership Management Plan.
- The following organisations formed the Visit Winchester and the Heart of Hampshire Destination Management Partnership to support tourism in Winchester and the Hampshire area of the South Downs:
